

## Best in Class Manufacturer Home Care & Personal Care Products

# ABOUT US

## Our Mission

**To be the Flexible and Agile partner that is an integrated extension of your supply chain, delivering excellent quality and service, at the best cost.**

## Our Story

**January 2021, we took over a state-of-the-art food grade manufacturing facility and invested in it for the production of Household Care, Personal Care and Beauty Care products. In short 4 months, April 2021, all industrial systems are up and running, operating with GMP standards, received EPA registration, and in progress to receive FDA registration.**

# Committed To Offer The Best Value & Customized Nimble Solutions

**DEDICATED PARTNER** Trison Wells is a full-service contract manufacturing company that specializes in liquid filling for household care, personal care and beauty care products.

**MADE IN USA EFFICIENCIES** Strategically located in Walterboro, South Carolina, we are proud to offer a Made in the USA manufacturing facility that delivers the best value to our customers by reducing the costs and time of lengthy supply chains.

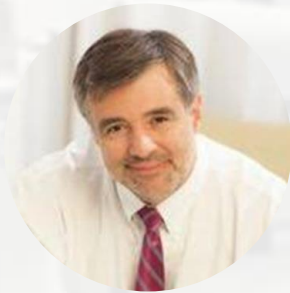

**EXPERIENCED LEADERSHIP** We are a minority-owned business, backed by a Board of Directors of seasoned professionals with extensive business experience in Fortune 500 companies and in the fields of Contract Manufacturing and CPG.

allowing for speed and  
ease of distribution.**

**45min from Charleston  
International airport**

**60min from downtown  
Charleston**

# State-of-the-Art Facility

Our team's know-how and our state-of-the art equipment gives us the flexibility to meet your specific product needs.

Our 82,000 ft<sup>2</sup> manufacturing facility is located in Walterboro S.C., along the I-95 highway for ease of distribution.

We have the space to add additional blending and packing capacity to suit specific needs.

# Water System & Liquid Raw Materials Storage

## Water System

- Validated USP grade water system
- Purified Water system includes
  - Carbon Pre-filters
  - Culligan Aqua-Clear Series G3 Reverse Osmosis Water Treatment System (by Culligan)
  - Optima HX and CSL Series high performance UV sanitization system (by Aquafine).
- Automated volume control water addition to mixing system
- 20,000-gallon SS storage tank and recirculation system through UV and Filters units

## Liquid Raw Materials Storage

- Three 5000-gallon SS storage tanks
- Volume control automated liquid raw material addition to mixing system

# Blending Systems

## Blending Systems

Simultaneous batch mixing capabilities with three 1,000-gallon SS mixing tanks equipped with agitation, recirculation circuits, 2 APV SS plate and frame heat exchanger for temperature control, powder raw material blending and adding station (TriFlow mixer)

- Two 1,500-gallon SS batch holding tanks
- Hard-piping SS pipe connection with fillers
- Automated flow with level control to fillers
- PLC and HMI control system
- Dust Collection system (by Donaldson) in the raw material powder handling room
- Segregated climate-control storage (60F) for special requirement Raw material

# Facility – Filling, Packing And Testing

Filler Types	Rotary High Speed, neck handling	In-line filler, base handling
Bottle Equivalent Diameter	Up to 3"	Up to 9"
Bottle Shape	Round and Semi-Round	All Shapes
Packaging Sizes	From 8.5-oz to 48-oz	From 3/4 -oz To 640-oz
Product Viscosity	Up to 250-cps	Up to 1500-cps
Caps & Closures	Round standard caps	All types of caps, triggers and sprayer

# Our Facility – Packaging, Packing And Testing

## Shrink sleeve & Labeling

- High Speed shrink sleever for round and semi-round bottles
- Labeler, front/back and wrap-around, all types of bottles
- Lot/date/product identification print on bottle or label

## Secondary Packing

- Multiple configuration shipping tray with shrink wrap
- Multiple configuration case
- Tray/Case identification label printer and applicator
- Multiple configuration palletizing
- Pallet identification label printer and applicator

## Testing

- Physicochemical lab available on-site. In-process testing as an integral requirement of product regulations and quality systems
- Additional testing available through our trusted 3rd party certified Labs

# Capable Of Performing Product Rework, Product Customization And Late-stage Differentiation

- **Product re-coding**
  - **Re-bundling; Re-labelling ; Re-packing**
  - **Visual Inspection and segregation**
  - **Pallet re-configuration**
  - **Display Packing**
- 
- **eCommerce configuration**
