

Filling Your Product's Needs

Best in class manufacturer of home care and personal care products.

COMMITTED TO OFFER OUR CUSTOMERS THE BEST VALUE WITH CUSTOMIZED QUICK AND NIMBLE SOLUTIONS

DEDICATED PARTNER our capabilities are in innovation and R&D, sourcing and procurement, blending and compounding, filling and packaging, and quality control. Our manufacturing model is highly flexible, and we consistently add value to our customers.

MADE IN USA EFFICIENCIES Strategically located in Walterboro, South Carolina, we are proud to offer a Made in the USA manufacturing facility that delivers the best value to our customers by reducing the costs and time of lengthy supply chains.

EXPERIENCED LEADERSHIP We are a minority-owned business, backed by a Board of Directors of seasoned professionals with extensive business experience in Fortune 500 companies and in the fields of Contract Manufacturing and CPG.

Our Mission

Our team of leaders bring with them extensive know-how in the consumer products and contract manufacturing industries. They have diverse industry backgrounds, ranging from large CPG executives with years of experience in Fortune 50 companies, to being successful business owners. We are on track to be a certified Minority-Owned Business.

Certifications

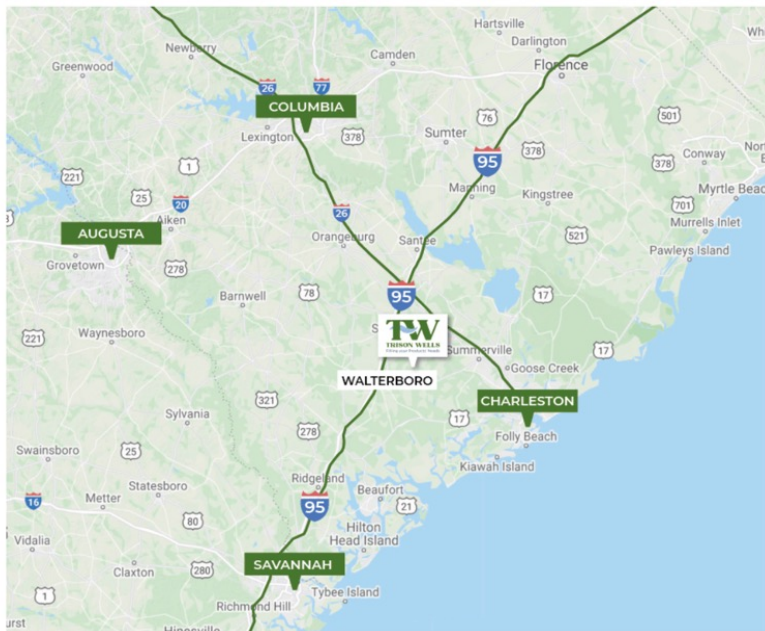

TW has a full physicochemical lab to perform all the testing as an integral requirement of product regulations and quality systems

We serve Fortune 500 companies, with strong cGMP; and Quality management; and Micro Risk Assessment Program.

Our Facilities

- ▶ Our team's know-how and our state-of-the art equipment gives us the flexibility to meet your specific product needs.
- ▶ Our 82,000 ft² manufacturing facility is located in Walterboro S.C., along the I-95 highway for ease of distribution.
- ▶ We have the space to add additional blending and packing capacity to suit specific needs.

Water System

- ▶ Validated USP grade water system
- ▶ Purified Water system includes
 - ▶ Carbon Pre-filters
 - ▶ Culligan Aqua-Clear Series G3 Reverse Osmosis Water Treatment System (by Culligan)
 - ▶ Optima HX and CSL Series high performance UV sanitization system (by Aquafine).
- ▶ Automated volume control water addition to mixing system
- ▶ 20,000-gallon SS storage tank and recirculation system through UV and Filters units
- ▶ Liquid Raw Materials Storage**
- ▶ Three 5000-gallon SS storage tanks
- ▶ Volume control automated liquid raw material addition to mixing system.

Blending System

Simultaneous batch mixing capabilities with three 1,000-gallon SS mixing tanks equipped with agitation, recirculation circuits, 2 APV SS plate and frame heat exchanger for temperature control, powder raw material blending and adding station (TriFlow mixer)

- ▶ Two 1,500-gallon SS batch holding tanks
- ▶ Hard-piping SS pipe connection with fillers
- ▶ Automated flow with level control to fillers
- ▶ PLC and HMI control system
- ▶ Dust Collection system (by Donaldson) in the raw material powder handling room
- ▶ Segregated climate-control storage (60F) for special requirement Raw material

Filling and Packing

Filler Types	Rotary High Speed, neck handling	In-line filler, base handling
Bottle equivalent Diameter	Up to 3"	Up to 9"
Bottle shape	Round and Semi- Round	All Shapes
Packaging Sizes	From 8.5-oz to 48-oz	From 3/4 -oz To 640-oz
Product Viscosity	Up to 250-cps	Up to 1500-cps
Caps & Closures	Round standard caps	All types of caps, triggers and sprayer

PACKAGING, PACKING AND TESTING

Shrink sleeve & Labeling

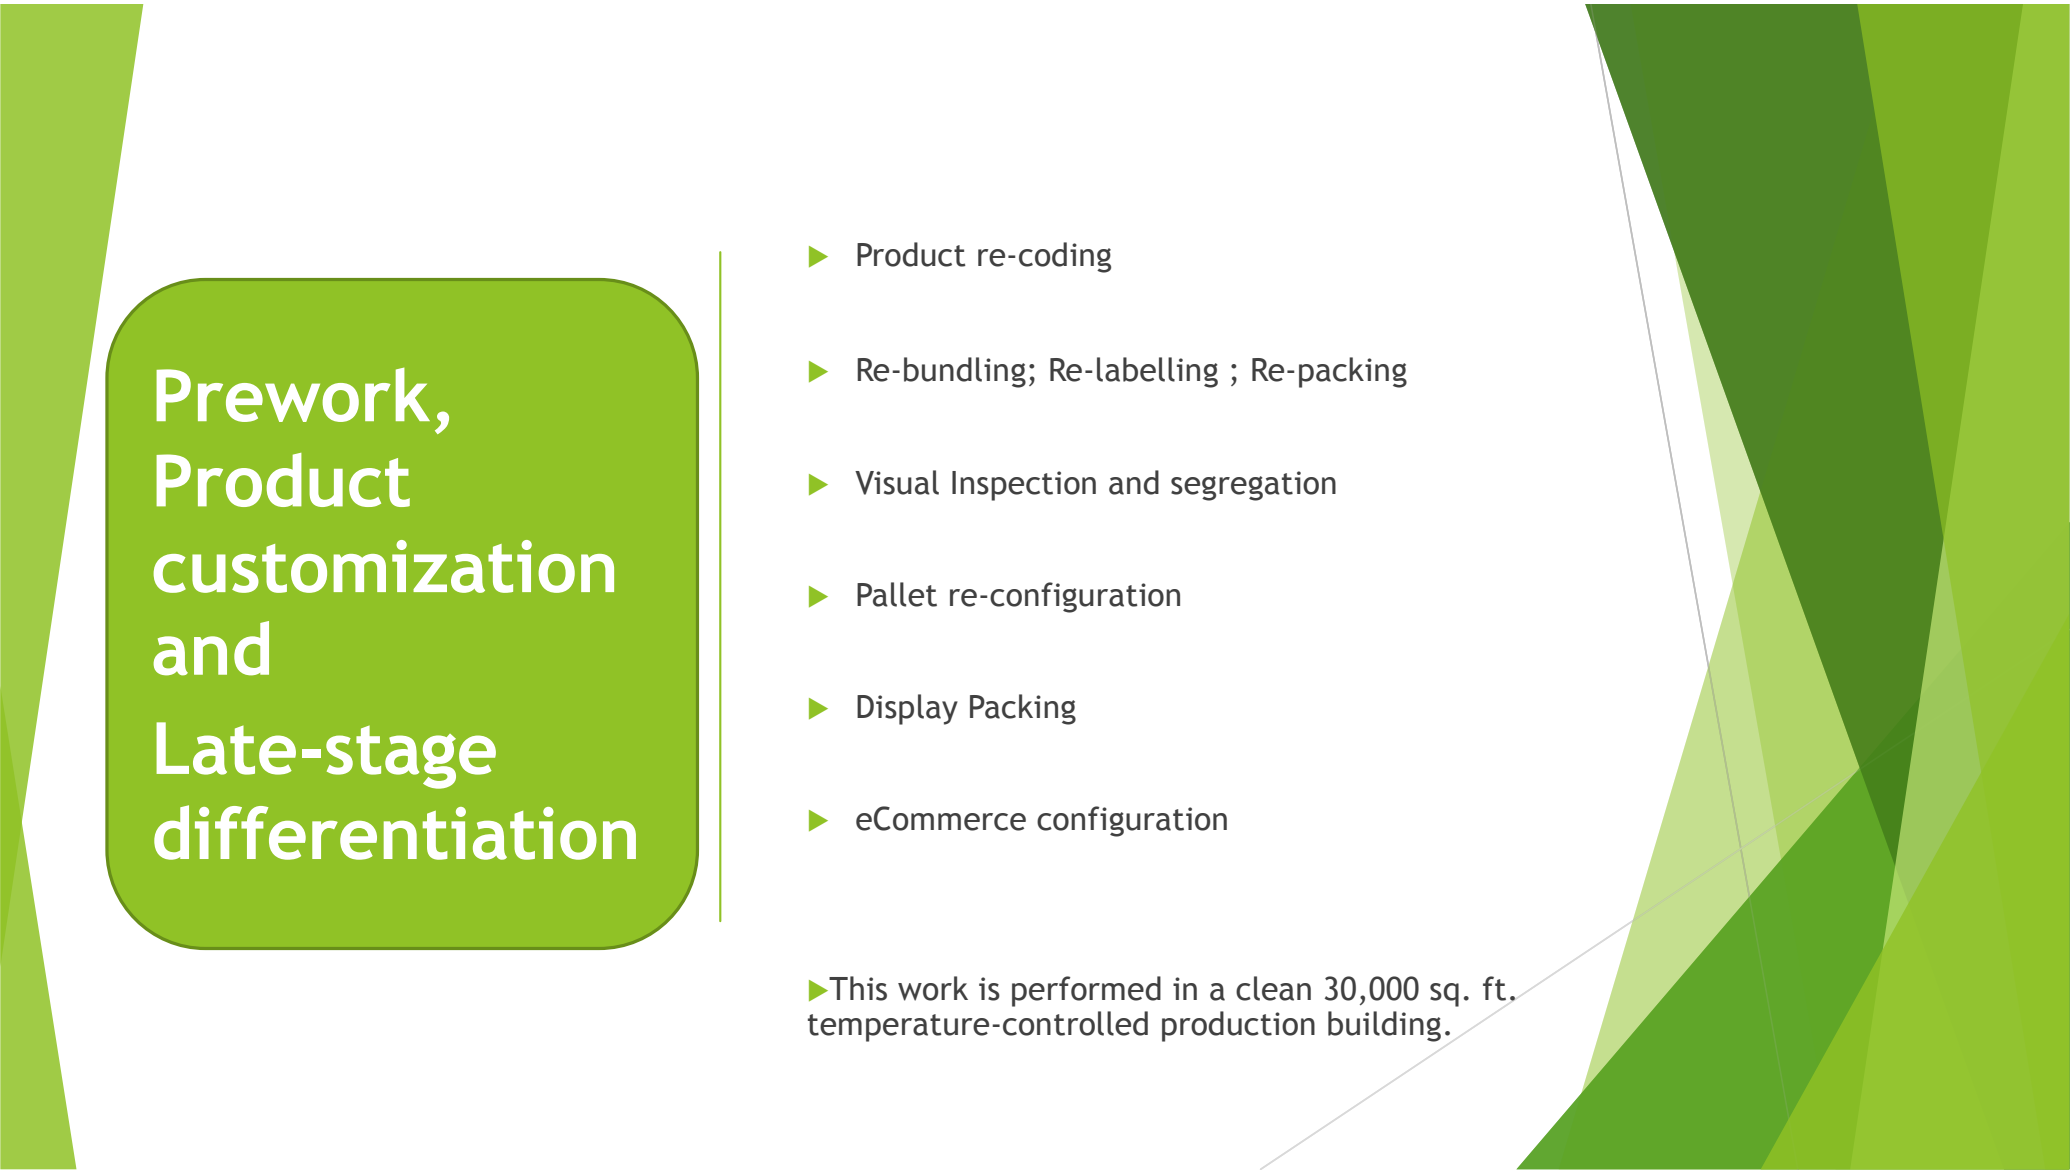

- ▶ High Speed shrink sleever for round and semi-round bottles
- ▶ Labeler, front/back and wrap-around, all types of bottles
- ▶ Lot/date/product identification print on bottle or label
